Program Highlights:

- Emotional and psychological impact of LODD
- Critical injury in the line of duty
- Line of duty death or injury notifications
- Additional resources for agencies/professions
- Administrative and logistical action plans
- Debriefing steps of a line-of-duty death process
- Stages of grief Cultural differences
- Care for the organization and the surviving family
- CISM components after a line of duty death/injury

Target Audience:

This class has been designed to prepare Emergency service providers including Police, Fire, EMS, Dispatch, Corrections, Community Corrections, military personnel, Medical Personnel, school administrators, municipal officials, CISM teams and others for what may be the toughest situation they will face.

Instructor:

This course will be taught by ICISF instructor Paul V. Jockimo. Mr. Jockimo is a veteran of over 20 years in Public Safety, Fire and EMS, currently working for the Westchester County (NY) Department of Emergency Services. A member of the ICISF's Speakers Bureau as well as an approved instructor, Paul has gained national recognition for speaking on CISM and LODD issues.

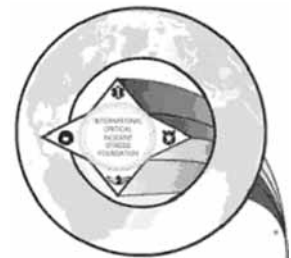

This is an official International Critical Incident Stress Foundation course, and all attendees will receive certification under ICISF standards upon completion. This course is one of the specialty classes required to receive your ICISF Certificate of Specialized Training.

One of the toughest situations to face is the line of duty death. The administrative and logistical aspects of a LODD are often overwhelming to those individuals and agencies that are ill prepared. This course will address many of those issues as well as give special attention to pre-incident planning and proper follow-up services.

This interactive class has been designed to prepare Emergency Service providers, military personnel, school administrators, municipal officials as well as CISM teams who may need to address a Line of Duty Death.
