### Course Content

John Giduck, arrived at the Beslan Middle School No. 1 in North Ossetia, Russia, at the conclusion of the battle by Russian Special Forces to retake the school. He spent months investigating all aspects of this attack, including many interviews with Russian Special Forces, government officials, and Beslan townspeople. Get insight into how the terrorists' plan was formed, intelligence developed for the assault, defenses deployed, and how ultimately negotiations failed and why, resulting in more than 300 dead in a ten hour battle. This seminar also covers the government's plan in handling the crisis, what went wrong, and what went right. Vulnerabilities of U.S. schools to this same type of assault and necessary changes in security to protect our children are presented in detail. Diagrams, video, and never before seen photos will be presented during this course. John Giduck is part of the only American group to conduct an on-scene investigation of this tragedy as it unfolded.

**"John Giduck is one of our nation's leading experts on terrorism"**
